

Problem Solving Week (EYFS)

Name: _____

Class: _____

Michelle has a bracelet with 5 beads.

She only has red, green and blue beads on her bracelet.

How many different patterns could she make on her bracelet?

Show your examples below.

A large rectangular area defined by a dashed blue border, intended for the student to draw or write examples of different bead patterns.

Please ensure your entry is returned to your teacher by 30th of March, prizes will be given out in assembly on the 31st of March.
