Y2 Maths Challenge Spring term 1

The Maths Challenge questions are aimed to help your child in school and also to support their maths fluency. Your child can always come back to a challenge that you think they need some extra help with. Children will have a **short test in Friday's maths lesson** to see how well they have completed the challenge. Please feel free to come and ask if you need any clarification about any of the challenges.

Test date:	Maths Challenge	Comment/ signature by adult
13th January	**Adding 2-digit numbers by drawing tens and ones. E.g.** **21 + 13**	
27th January	**2x, 5x, 10x tables** We will ask questions such as what is 2 x 3? The children will be allowed to draw arrays if they need to. It would help if they can recall some of these without drawing. e.g. 2 x 3 could be worked out by doing either of these arrays:	
10th February	**Time** We will ask children to draw the hands of clock faces to show specific o'clock and half past times.
